Gastronomy
Conference Topics

Traditional Conference Topics:

• Design and Implementation of Real-Time and Embedded Systems,
• Design and Implementation of Mixed-Criticality Systems,
• Theory and Practice of High-Integrity Systems,
• Software Architectures for Reliable Systems,
• Methods and Techniques for Quality Software Development and Maintenance,
• Ada Language and Technologies,
• Mainstream and Emerging Applications with Reliability Requirements,
• Achieving and Assuring Safety in Machine Learning Systems,
• Experience Reports on Reliable System Development,
• Experiences with Ada.
Research Papers: Journal-Track

Full-length papers describing mature research

Presentation slot in the conference

Submission date: 7 January 2020

Published in an open-access journal
Research Papers: WiP-Track

Short (4-page) papers describing evolving and early-stage ideas and new research directions

Presentation slot in the conference and poster

Submission date: 31 March 2020

Published in Ada User Journal as part of the Conference Proceedings
Industrial/Tutorial/Workshops

Industrial Presentations
• At least 1 page in length
• Expanded versions published in the Ada User Journal

Tutorials
• Educational seminars including hands-on or practical demonstrations
• Summaries to be published in the AUJ

Workshops
• On themes that fall within the conference scope

Submission of Industrial Presentations/Tutorials/Workshop Proposals by 7 January 2020
See you in Santander!
